An MVIFI Dine and Design Evening.

Are you itching to get into Studio(i) to tinker, design, and build? Are you wondering how making might bring a different dimension to your projects? Are you curious about what's happening with #MVMaker?

If you answered "Yes!" (or even, "Maybe") to any of these questions, then come join Jim Tiffin and T.J. Edwards for a night of playing and learning in Studio(i). We'll start with dinner together, and then we'll dive into the making.

Come join us for the launch of MVIFI's evening series of XLR8: Makers!

- **DATE:** Thursday, November 12
- **TIME:** 5:00 p.m. - 7:00 p.m.
- **PLACE:** Studio(i), Founders Campus
- **FOOD:** YES!
- **TOPIC:** Programming and Sensors with Scratch
- **FUN:** You Know It!
- **REGISTER:** [On Eventbrite](http://mvifi.eventbrite.com)
You were added because you are a 2015-2016 Faculty member.
